Lifesize Videos saved to folder on Desktop

Open Folder and Drag folder content into Content Drag and Drop.

If choosing videos to be available in one folder, save them all to this desktop folder.

If choosing videos to be available in different weeks, save them to specified weeks folders on desktop to be dragged according to weeks

The screenshot shows the Moodle course edit interface. On the left is a sidebar with course navigation options. The main area is titled 'General' and 'Content'. In the 'Content' section, there is a 'Files' area where two video files, 'Graduate' and 'TEST Video', are being uploaded. A red dashed arrow points from a Windows File Explorer window on the right to the 'Files' area. The File Explorer window shows a folder named 'LIFESIZE-Videos to BIB' containing two video files: 'Graduate Test Video' and 'TEST Video Lifesize Recording'. A red box highlights the text: 'Each Video was dragged and dropped to Content box and now shows as a video icon with th Session Titles' and 'SAVE AND DISPLAY'.

The screenshot shows the Moodle course page for 'TB Deleted Adding Lifesize Recordings Course'. The 'Information Center' is visible on the left, listing various course activities. A red box highlights the 'Videos: Course Recordings' activity. A red box on the right contains the text: 'Course Page' and 'Video Resource folder is now available on course page. I choose to create it in the Information Center, but it could be created in any of the course sections'.

TB Deleted Adding Lifesize Recordings Course
