

Sharing VidGrid Videos

Copy and paste URL, MP4 download, shared folder

Copy and Paste URL in VidGrid

The image shows a video player interface with a background of purple flowers. A context menu is open on the left side of the video, listing three options: "Copy video URL", "Copy video URL at current time", and "Copy embed code". The "Copy video URL" option is highlighted with a red circle. A red arrow points from a text box on the right to this option. The text box contains the following instructions:

When video is complete and edited, right click on video.

Copy choices open up:
Click on Copy video URL.

Paste in assignment, email, forum, etc.

Below the video player, there is a white bar with the word "video" on the left and a series of icons on the right: a Creative Commons license icon, a share icon, a globe icon, a scissors icon, a refresh icon, and a more options icon.

Download MP4

MP4 Submission
Select Download from the more options menu
Open video in screen insert

This window will open after clicking on Download
Select Open with and OK

Your video may open up in a second screen. Close it.

Select download arrow
Video will be listed in downloads
Drag video to desktop

MP4 file can be uploaded or copied into assignment, email, forum, etc.

The image is a composite of four screenshots illustrating the process of downloading an MP4 video from the VidGrid application. The top-left screenshot shows a video player with a 'Flowers' video. A file dialog box is open, showing the file 'video of video.mp4' (390 KB) from 'https://vidgrid-production-content.s3.amazonaws.com'. The dialog asks 'What should Firefox do with this file?' with options 'Open with TWINUI (default)' and 'Save File' (selected). The top-right screenshot shows the 'More options' menu for the video, with 'Download' highlighted. The bottom-left screenshot shows the video player in a browser window. A download notification is visible, stating 'video.mp4 File moved or missing'. A red dashed arrow points from the download notification to a video file icon on the desktop. The bottom-right screenshot shows the video player with a comment box and a red box highlighting the download arrow in the video player controls.

Creating Shared Folders: VidGrid

Shared folders may be used for multiple collaborators to view or combine video projects. Shared folders may also be shared with instructors as a method of review and submission.

The image displays two screenshots of the VidGrid interface, illustrating how to create and manage shared folders.

Top Screenshot:

- Left Sidebar:** Includes a 'Record' button, a 'My Grid' dropdown menu, and a list of folders: 'My Videos', 'New Folder 1', 'New Folder 2', 'Shared with me', 'Campus Wide CONT...', and 'Trash'.
- Main Content Area:**
 - My Grid:** A red box highlights the 'Folders' tab. A callout box states: "Click on the arrow next to **My Grid** to view all of your folders, or view your folders at the top of your grid."
 - Folders:** A red box highlights the folder list: 'My Videos' (solid), 'New Folder 1' (yellow, with a person icon), and 'New Folder 2' (purple, with a person icon).
 - Videos:** A red box highlights a video thumbnail. A callout box states: "Folders with a person icon are **shared folders**. Solid folders are **not shared**."

Bottom Screenshot:

- Left Sidebar:** Similar to the top screenshot, but the 'My Grid' dropdown is expanded.
- Main Content Area:**
 - My Grid:** The 'Folders' tab is selected. A red box highlights the 'My Videos' folder. A callout box states: "To create or change shared functions, hover on right side of folder to view vertical ellipses (3 dots). Click on this."
 - Folders:** The 'My Videos' folder is highlighted in blue. A red box highlights the vertical ellipsis (three dots) on its right side. A tooltip labeled 'My Videos' appears when the ellipsis is clicked.
 - Videos:** Two video thumbnails are visible: 'Untitled Recording' and 'lifesize'.
